Redd Freed-Jeff Cohen Frame-Up ripoff

JL: August Crawdaddy has the typical sick assassination stuff. It includes an article by Jeff Cohen the idea and content of which come directly from my work and to the best of my knowledge no/other. O in NO. It is the comparison of the actual transcript of the Stickey program (LHO vs Bringuier) with the official, altered one. I've just skimmed. Too sick, even for today's treatments and stories. My point in noting this is the Cohen/Freed collaboration in an apparent ripoff of my work when I would not sign a nothing contract with Freed and he then wrote and said he'd send me a meaningful one, agrreding with my compliant.
